

DAT SP-Low VOC

Technical Data Sheet

DESCRIPTION

A golden yellow low volatile organic compound (Low VOC) solvent-based synthetic rubber resin adhesive. It has been specially developed for environment friendly for industries that want to save time and cost in their manufacturing process. Suitable for automotive, upholstery, interior furnishing, flooring, wood working and insulation material industries. It is high resistance to high temperatures and forms strong bonds between bonded substrate

APPLICATIONS

DAT SP Low VOC is sprayable type adhesives, low viscosity, low spider web, suitable for bonding a porous material such as wood, leather, cork, and flexible foam

SPECIFICATION

APPEARANCE	:	Viscous Liquid Product
COLOR	:	Golden Yellow
BASE	:	Polychloroprene
TOTAL SOLID CONTENT	:	16 - 18 %
VISCOSITY	:	200 – 400 centipoises
DRYING TIME	:	3 mins. – 10 mins.

HEALTH AND SAFETY

The solvents contained in this product are highly inflammable and subject to legislation regulating their storage and use.

STORAGE AND SHELF LIFE

Store in well sealed containers. Keep satisfactorily for at least 6 months. High temperature storage should be avoided and recommend to store within the temperature 4 to 30 c.
